

THE 2021 WINTER PROGRAM

quer ist mehr

A
WARM
WELCOME

2021 SEASON

WHAT AWAITS YOU

Let's start a new season at "Drifters Paradise" in Sweden and Austria. Like last year, we have a large selection of vehicles, training formats and varied tracks ready for you.

AUSTRIA

"SERVUS" LUNGAU

The past season on our new training facility was an all out success! Double driving time, perfect ice quality and first-class vehicle selection. Look forward to maximum drifting fun in the "Thomatal" valley.

SWEDEN

WELCOME BACK TO MALÅ

Where else? Sweden as an unrivalled refuge: Forget global politics and the hustle and bustle of everyday life for a moment. The nirvana of drifting awaits you. A magical winter landscape, true rally feeling, the finest vehicles and an experienced team await you.

THE 2021 SEASON

Quer ist mehr has stood for professional driving events on all types of surfaces for over 10 years. Our team consists of carefully selected and trained instructors who live our philosophy. Our mission is to convey driving dynamics while providing the greatest possible driving pleasure and intensive training.

MAXIMUM DRIVING TIME - PRACTICE MAKES PERFECT

...that's why our coaches not only text, but are above all experts in bringing you further in your practice. Our trainings are especially characterized by a high proportion of driving: In Austria, you will drift up to 120 km a day, and for Sweden, after more than 500 km in drifting, we recommend a good surgeon who will remove the grin from your face.

2 LOCATIONS - 5 TRAINING MODELS - INFINITE DRIFTING FUN

With our various training programs, vehicle models and the two locations in Austria and Sweden, we offer drift fans and sports drivers the opportunity to develop their individual skills and intensively train their car control on ice and snow.

YOUR VEHICLE - YOUR TRAINING

True to our motto "quer ist mehr", we have of course primarily focused on the drift qualities of the vehicles in our drift fleet for 2021. Our professionals and all-wheel drift fans can look forward to our proven Subaru WRX STI (manual gearbox) and SEAT Leon Cupra 300 4drive (DSG). Our Toyota GT86 are particularly suitable for newcomers or sports car fans who feel comfortable in the rear-wheel drive world of driving dynamics.

SERVUS IN AUSTRIA

Embedded in the picturesque mountain landscape, the "Thomatal" valley is predestined for optimal ice quality due to its shady location. Perfect preconditions for our courses.

Look forward to the following highlights in all 3 training models:

THE TRAINING

- Introduction to the theoretical basics of drifting
- Training vehicles incl. fuel with underride protection against damage, double or single occupied for an extra charge
- Up to 120 km of driving per day
- Experienced trainers and professional equipment
- Individual training, feedback and tips tailored to your experience level
- Exciting, varied exercises in driving dynamics on ice and snow
- Competition with winner's trophy
- Drinks and catering at the track, lunch in the lodge.
- Professional photographer accompanies the event

THE TRACK

Perfectly prepared, diverse handling course as well as several dynamic areas and circles in the winter driving park "Stegergut"

THE FLEET

Subaru WRX STI (Manual) | Seat Leon Cupra 300 4drive (Automatic) | ALL WHEEL DRIVE
Toyota GT86 (manual/automatic) | REAR WHEEL DRIVE

VÄLKOMMEN TILL MALÅ

Welcome to drift heaven. An incomparable winter training on over 10 kilometers of ice tracks, embedded in the breathtaking winter scenery of our frozen lake in Swedish Lapland (Malå) awaits you. Professional coaching of our guests, methodical structure of the training and maximum driving time are our quality standards. Experience true rally feeling, sustainable learning progress and perfect winter drift conditions.

WHAT AWAITS YOU

- Subaru WRX STI or Seat Leon Cupra 300 4drive with 1600 hand glued spikes
- Over 500km of drifting per weekend
- Experienced Instructors
- Training in small groups with a maximum of 4 vehicles / 8 participants
- A variety of exercises in driving dynamics and car control
- Culinary highlights from the Swedish kitchen (e.g. traditional flamed salmon) Overnight stays in a rustic hotel (single or double room)
- Attractive supporting program (additional booking of e.g. dog sled, reindeer farm possible)
- Airport transfers Arvidsjaur-Malå-Arvidsjaur

THE TRACK

Over 10 kilometers of demanding, perfectly prepared ice tracks, rally course, 120m dynamic area and circle.

THE FLEET

Subaru WRX STI | 300 PS, AWD, Manual
Seat Leon Cupra 4drive | 300 PS, AWD, DSG
